Final Project

Short Pitch:

A classic game of hangman on the web that could be played by two players.

Long Pitch:

In this hangman game, the first player can enter the word to guess and give a hint. The second player will have a selection of letters to choose from. Like regular hangman there will be a display for the gallows and the slowly emerging stick figure as the wrong letters are chosen. The player can quit the game and get the right answer at any time. The player can also ask for the hint that was entered before.
